EXTENSION OF TIME ON TAX PAYMENTS WILL RELIEVE MONEY

SAN FRANCISCO, Cal., Nov. 16 .-The situation is working out all right," is how Homer S. King, presiient of the Bank of California, and also chairman of the Clearing-House Association, summarized the local inancial conditions yesterday.

The calling of an extra session of the Legislature by Governor Gillett, with a view to passing measures that will extend the date of tax delinquenc) and consequent penalties, has given an additional easement to the noney situation. It is understood by the bankers that the extension of time for the payment of taxes will be for sixty days from November 25th. This will delay for that period the payment of from \$6,000,000 to \$9,-000,000, and in the meantime it is expected that the local money market will have so readjusted itself that the taxes may be paid without embarrassment to anyone.

Deposit of City Funds
Still another amendment to the charter of San Francisco, which is expected to greatly relieve the money stringency, not only during the approaching tax-paying season, but in future years, is that permitting the City Treasurer to deposit with local banks, on ample security being given, the tax moneys in his possession, and which are not immediately needed for municipal purposes. The ratifiration of the amendment is included in the subjects to be considered by
